

OctoLooper Catalog

Wren Hawthorne

wrenhawth@gatech.edu

1. ASSIGNMENT ARCHIVE

A selection of papers to add context for the project:

- */assignmentDocs/Project Paper.pdf*
- */assignmentDocs/Project Proposal.pdf*

2. APP REPOSITORY

The root repository serves as the root of the application code:

- */README.md* provides instructions for running the code locally as well as additional information about the code's architecture
- The latest version of the application code can also be found at <https://github.com/wrenhawth/octo-looper>
- A hosted version of the tool can be accessed at <https://wrenhawth.github.io/octo-looper/>

3. SURVEY RESPONSES

Response data is included in both comma separated value (CSV) format and in a richer format that can be loaded using the open-source [jamovi](#) software:

- */surveyData/survey_responses.csv*
- */surveyData/survey_responses.omv*
